

Gloucestershire County Cricket Club

Regeneration of the County Ground – Feedback Form

Thank you for visiting the GCCC website and viewing details on the emerging proposals for the regeneration of the County Ground.

The proposals are preliminary at this stage and we would welcome any suggestions or ideas that people may have that will help in taking this concept forward. We also want to understand people's concerns and would welcome comments and/or questions.

We will consider all comments made and respond where appropriate or where it is requested.

Gloucestershire County Cricket Club believes the proposals form an exciting step forward for the future of the Cricket Club, but is also vital if international cricket is to be retained in Bristol. International cricket provides an important source of revenue for the Club, helps develop players of international standing, and provides wider economic benefits for the City of Bristol. However the Cricket Club cannot fund the proposals entirely by itself and therefore the 'enabling development' of student flats is key to the viability and success of the proposals.

We recognise that there will be concerns from local residents and other organisations regarding the proposals and we undertake to seek to resolve as many of these concerns as possible as we take our proposals forward.

We want to keep you informed and are in the process of setting up a page on our website dedicated to the proposals for the Ground, which should be up and running next week. Copies of the exhibition boards will be available to view and we will also post responses to key issues raised through the consultation on the website. The website address is www.gloscricket.co.uk

In order to assist us in keeping you informed it would be helpful if you could complete the contact details below and add any comments/questions/suggestions in the boxes provided. The contact details will only be used in connection with the regeneration proposals and will not be disclosed to any third party without prior agreement.

Thank you.
